

## ITIL 4 FOUNDATION WITH EXAM

**Duration** 3 days

### Introduction

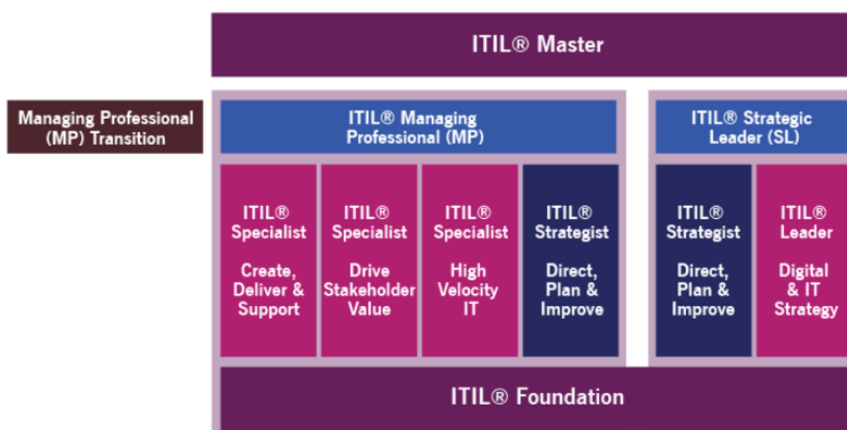

This is a new two-day course that prepares you for the examination leading to the new Foundation Certificate In IT Service Management.

The ITIL 4 Foundation Certification Course is designed for anyone working in IT looking for IT Service Management education and an understanding of how to provide business value. Also, anyone who is looking to upgrade their ITIL v3 certification and knowledge.

The course is designed as an introduction to ITIL 4 and enables you to understand a new way to look at IT Service Management through a Service Value System (SVS).

What's the difference between ITIL v3 and ITIL 4? In a nutshell, ITIL v3 describes Service Management around 26 processes and functions that are part of a continuous process of 5 life cycles: Service Strategy, Service Design, Service Transition, Service Operation and Continual Service Improvement. All of the v3 body of knowledge is still very worthwhile and relevant!

ITIL 4 takes you through a more evolved view of a Service Value System (SVS), which provides a holistic end-to-end picture of what it really means to contribute to business value, and also integrates concepts from models such as Lean IT, Agile and DevOps.
